

## Week 5 Practice - Data Modeling

### Q1.

The following questions are from your practice of the "SQL Lesson 6: Multi-table queries with JOINS" on [SQL Bolt]([https://sqlbolt.com/lesson/select\\_queries\\_with\\_joins](https://sqlbolt.com/lesson/select_queries_with_joins)).

#### Q1.1. SQLBolt: Multi-table queries with JOINS

Type in the SQL query you used in response to the following question:  
"Find the domestic and international sales for each movie."

#### Q1.2.

Type in the SQL query you used in response to the following question:  
"Show the sales numbers for each movie that did better internationally rather than domestically."

#### Q1.3.

Type in the SQL query you used in response to the following question:  
"List all the movies by their ratings in descending order"
